

NOTICE

Announcement of End of Life of Managed WAF Service

Publish Date: June 2020 Version: 1.0

These End of Life (“EOL”) Announcements arise from a recent decision by Secureworks who has issued an end of life for our Managed Web Application Firewall Service. This includes upgrading and updating the software, tuning the applications, etc.

The following services are included in this EOL along with their respective EOL effective date:

Service	Effective EOL Date
Managed WAF Service	01/31/2022

Secureworks has several Monitoring services available for our Customers:

- Monitored Web Application Firewall product is available on the Secureworks CTP platform and can be easily exchanged
- Customers that are continuing CTP based services, Up to Security Device monitoring could be an option for those customers who have a high quantity of network-based security appliances
- For CTPx based solutions, Web Application Firewalls can be ingested as data sources if you would like to consider migration to our Secureworks Red Cloak Threat Detection and Response (TDR) application

As always, we value your business and are committed to providing you with the highest quality service that you have come to expect from SecureWorks.

Thank you,
Secureworks Service Lifecycle Management
